

We are

Environmentally conscious Paper Bag Ads is committed to the responsible use of resources and to reducing our environmental impact. From energy sourcing to the supply chain, sustainability remains a key factor in our decision-making process. Whenever possible through the use of green energy, we minimize our CO₂ emissions. New computers/servers are built with the most energy-efficient technologies possible, and recycled or disposed of properly at the end of their service lives **Minimizing CO₂**

Green energy whenever and wherever To reduce our CO₂ and to help do our part in the battle against climate change, Paper Bag Ads utilizes energy from renewable sources wherever possible..

Intelligent cooling Since we are a Florida company, cooling requires a considerable amount of energy. Finding more intelligent ways of cooling our office is a priority.

We are always working on other sustainable initiatives

Business travel

Environmentally responsible travel

Our energy-efficient office is equipped with the latest in digital tools for instant messaging and video conferencing. These ensure cross-country collaboration — without the need for cross-country travel. When traveling is a must, train is the preferred means of transport.

Paper Bag Ads employees are encouraged to carpool or use alternate fossil-fuel-free forms of transport.
